Our school booked HeARTbeat Theatre Productions during Education Week for a full school performance. Having come highly recommended by a staff member who had seen them at the Fringe over the summer, we invited our neighboring K-8 school, as well as our local day care providers. Students and adults from age 3-65 thoroughly enjoyed the production and it's incredible cast of characters. It was an engaging, funny and heartwarming tale!

In the evening, HeARTbeat led our extracurricular Drama Club in a number of games and exercises designed to engross and amuse our diverse group of students. They were tirelessly entertaining and wonderfully kind and compassionate with every person they had contact with.

This incredible band of talented professionals was an unforgettable part of our fall and we are still talking about the impact they had on our school!

Thank you, HeARTbeat!
